Dear Parent

Warm greetings!

You have already been apprised that the Ministry of Health and Family Welfare, Government of India has launched a nationwide campaign to eradicate Measles and Rubella by 2020. A pamphlet with all the requisite details has already been issued to the students. Measles – Rubella (MRI) vaccine provides protection to children from measles - a life – threatening disease, which spreads through virus. It can cause disability or untimely death of children. The vaccination also provides protection against Rubella – an infectious disease caused by virus which has similar symptoms as measles. It infects both boys and girls.

Important points to recall:

- All children less than 15 years must get vaccinated during this campaign
- Every child should take the vaccination, even if he/she has already been given the vaccinations earlier.
- MR vaccination is very safe and does not cause any severe side effects.
- The children will be vaccinated by trained health workers / doctors.
- Ensure your participation and support to the campaign.

The school is extending wholehearted support to make the campaign successful by making it convenient to get the vaccination of your ward in your presence. Many schools in the vicinity have conducted this mission successfully with an overwhelming response. You are requested to come to school on Saturday, 12th Jan'19 when the MR vaccination will be organised at designated venues. Parents are being gently reminded to carry the Parent ID card issued by the school and enter through Gate No.2 of the school. Students must come in proper school uniform with the RFID card. Specific time- slots have been assigned to the parents for administrative convenience which needs to be strictly adhered to.
