

Every child carries something extraordinary within, a quiet brilliance, waiting to be uncovered, a spark waiting to be ignited. It's not given or taught; it's already there.

It's innate. It's powerful.

At DWPS, the journey is about awakening that light. Guiding students to see it, believe in it and nurture it. It's about turning quiet potential into bold purpose. This philosophy stems from a simple yet powerful idea: the purpose of learning is not to fill, but to reveal. About helping every child rise to meet their brilliance with courage and conviction.

Because when that light is awakened, it does more than shine.

It transforms perspectives, reshapes possibilities,

And empowers the next generation to lead with vision and integrity.

DELHI WORLD FOUNDATION

An introduction

Delhi World Public Schools are a contemporary chain of schools under the aegis of the Delhi World Foundation initiated by Delhi Public School Alumni which includes luminaries like Salman Khurshid – Former External Affairs Minister, Government of India; Montek Singh Ahluwalia – Former Deputy Chairman, Planning Commission; Chintamani Rao – Former Vice Chairman, Times Broadcasting Company; Dr. Rakshanda Jalil, Historian, Sharmila Tagore, Actor and several others.

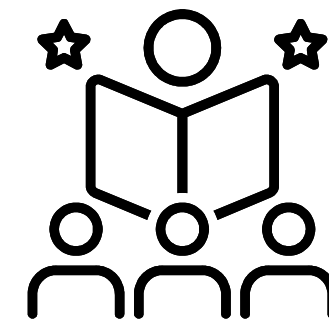

With about a 100+ schools running, the Foundation spearheads a mission to achieve excellence in education through cutting edge learning tools combined with the human touch and the unique Guru-Shishya (Teacher-Pupil) bond of our ethos.

Delhi World Public School Noida Extension is one of the first member school of the Delhi World Foundation.

With a vision to reach every corner of the nation, the Foundation has created a growing family of institutions where academic excellence meets creativity, character, and curiosity. Each school reflects the Foundation's unwavering belief in holistic education — one that not only imparts knowledge but also instills values, fosters critical thinking, and encourages a lifelong love for learning. Each school emphasizes on creativity, critical thinking, and a deep sense of social responsibility, ensuring that each student receives a truly transformative educational experience.

WHO WE ARE

Inspiring Excellence, Shaping Global Citizens

Immersive, inspiring, and purpose-driven, Delhi World Public School, Noida Extension is a place where curiosity is sparked, values are deeply rooted, and young minds are prepared to navigate an ever-changing world with confidence and clarity. Our vibrant learning environment blends academic excellence with creative exploration and global perspectives. Through engaging lessons, artistic expression, and meaningful international connections, we shape not only well-informed learners but also empathetic, responsible citizens.

With a thoughtfully crafted curriculum, we support every aspect of a child's development - intellectual, physical, emotional, and social. Co-curricular enrichment, community involvement, and real-world exposure are seamlessly integrated to create a rich and balanced educational journey.

Anchored by a team of passionate and skilled educators, our school serves as a dynamic center of learning where each student is empowered to grow in knowledge, character, and capability. At DWPS NE, we nurture not only scholars but lifelong learners who think critically, act ethically, and lead with purpose in a global community.

Every child is encouraged to dream, to grow, and to glow - in character, in knowledge, and in spirit.

Nurturing intellectual potential.

Learning that transcends the classroom.

Cultivating imagination, talent, and a voice with impact.

Inspiring educators who lead with purpose.

Empowering students to make informed choices.

Giving back to the wider community

There's a fire inside.
A spark. A flame.
A quite force.
An untamed brilliance
just waiting to shine.

Find it.
In every question you dare ask.
In every climb too high.
In the rhythm of courage,
In the heartbeat of time.

Find it.
When the world says no.
When the road turns steep.
When the shadows rise,
And the doubts run deep.

That light is there.
Burning bright.
Waiting.
For you to rise.
For you to fight.

Because here,
In these halls,
We don't just guide.
We ignite.
We don't just teach.
We transform.
Here,
You'll rise.
You'll lead.
You'll shine.
Here, you'll
find your light.
And when you do,
The world will never
be the same.

From the Principal's Desk

**“True education is not about filling minds
- it is about lighting fires of purpose.”**

Welcome to Delhi World Public School, Noida Extension - where education is not confined to the classroom and learning isn't limited to the syllabus. At DWPS, we believe in building layered learners - young individuals who grow in thought, depth, skill, and spirit, one meaningful experience at a time.

As the **founder Principal of the school, with over three decades** of experience in the education sector, it has been my vision to create a nurturing environment where excellence in academics is balanced with the values, creativity and holistic development.

Inspired by Plato's ideal of the philosopher-king, I believe that leadership in education must be characterised by vision, empathy, and an unwavering commitment to truth and transformation. My role here is to guide - to mentor every learner in becoming equipped for a world that is constantly evolving through AI, automation, and unprecedented global connectivity.

Children today are not just growing up - they are growing into a world where answers change faster than the questions they ask. That's why we focus not only on what they learn, but how they learn - through curiosity, courage, collaboration, and creativity.

At DWPS, we are intentional about every layer we build: emotional strength, ethical grounding, intellectual resilience, and digital dexterity. These are not extras - they are essentials. We are preparing our children not just for higher education and careers, but for complexity; not just for exams, but for excellence in life.

As you turn the pages of this brochure, you will see a school in motion - vibrant, relevant, future-ready, and always centred on the child.

Ms. Jyoti Arora
Principal

From the Director's Desk

**“The aim of education is the knowledge,
not of facts, but of values”**

At Delhi World Public School, we believe that true education extends far beyond academic excellence. It is about igniting minds, shaping character, and nurturing the courage to dream and the resilience to pursue those dreams.

In a world of rapid transformation, our mission is to prepare students not just for school, but for life. We focus on cultivating 21st-century competencies - critical thinking, creativity, collaboration, and compassion - while ensuring a deep-rooted sense of ethics and responsibility. Our learning ecosystem integrates tradition with innovation, values with vision, and discipline with discovery.

We recognize that every child is unique, and our goal is to offer an education that honours their individuality while challenging them to reach their highest potential. From immersive academics and experiential learning to cultural enrichment and global exposure, every initiative at DWPS is designed to inspire lifelong learning.

“The function of education is to teach one to think intensively and to think critically. Intelligence plus character - that is the goal of true education.” - Martin Luther King Jr.

Our dedicated team of educators, in partnership with supportive parents, forms the backbone of a nurturing and progressive school environment. Together, we strive to raise not only successful students, but thoughtful leaders and compassionate citizens of the world.

At Delhi World Public School, we don't just educate- we empower. And we do so with conviction, clarity, and care.

Dr. Saiyam Sahni
Director

Next-Gen

we nurture minds that are curious, hearts that are kind, and spirits that are bold.

At Delhi World Public School, we are fully present to the evolving needs of the 21st century. We understand that preparing children for the future goes far beyond academics.

Our world is changing rapidly, bringing with it new challenges, complex realities, and unexpected situations. At DWPS, we are committed to equipping our students with the skills they need to think, adapt, empathize, build resilience, and lead in this dynamic landscape.

We believe education must evolve to prepare students to face the complexities of the real world with strength and confidence. From digital literacy and critical thinking to emotional intelligence, ethical decision-making, and global citizenship—our curriculum is designed to nurture well-rounded individuals who are ready to lead with confidence, courage, and compassion.

Our approach includes:

1. Digital Fluency

We empower students to navigate the digital world with confidence and integrity. By demystifying technology, we equip them to work with AI, interpret data, and apply both ethically and effectively. Our guidance ensures they not only understand digital tools and basic coding, but also know how to protect their personal information and stay safe online.

2. Agility & Adaptability

At DWPS, we ignite curiosity, foster critical thinking, and nurture creative problem-solving. Our students grow into empathetic, resilient collaborators, equipped to navigate life's challenges. With a strong focus on adaptability, well-being, and balance, we support every child in reaching their full potential..

3 Globalism

Students engage with diverse cultures and global issues, learning to respect differences and preparing to thrive in an interconnected world.

4. Environmentalism

We empower students to care for the planet, understand climate science, and adopt sustainable habits.

5. Conscience

We teach children to act with integrity, understand

ethical challenges, and take responsibility for their choices in a digital and physical world.

6. Principled

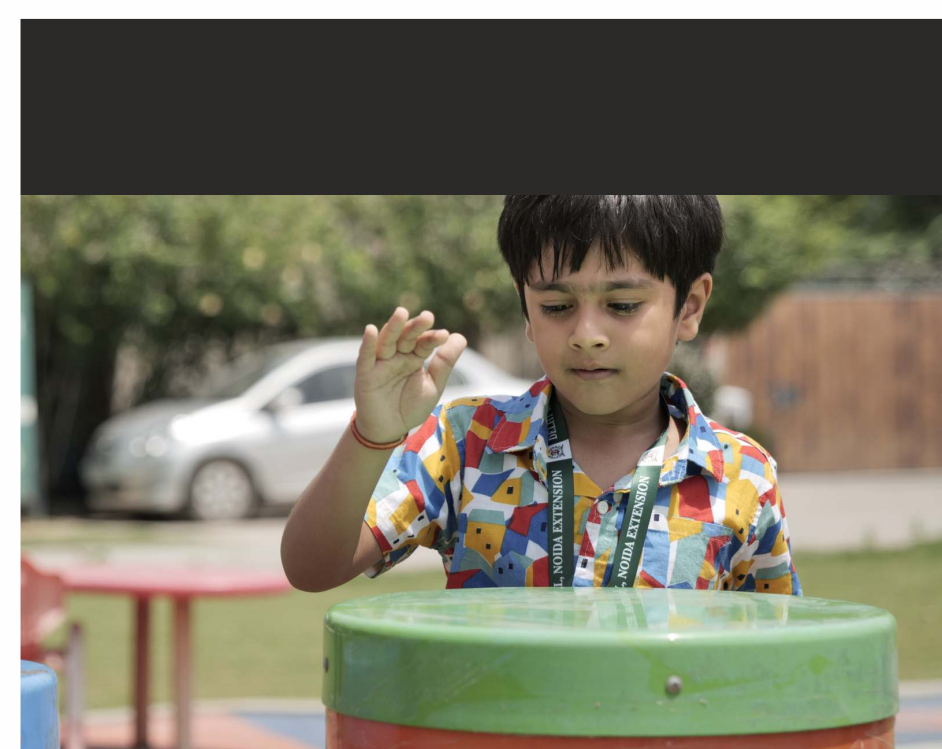

At DWPS, students are empowered to lead with purpose, take initiative, and drive positive change. Rooted in strong values, our leadership approach nurtures ethical, compassionate advocates for the greater good. Through focused communication development, students become confident speakers, thoughtful writers, and active listeners—able to connect across cultures and express themselves with clarity.

7. Prudence

We prepare students to collaborate across cultures—in person and online. Through hands-on learning, they develop goal-setting, time management, and project execution skills. We emphasize active listening, respectful dialogue, and the role of empathy and tact in resolving conflict and building strong communities.

8. Visionary

Children learn to set meaningful goals, plan with purpose, and dream boldly. We nurture creativity, design thinking, and the courage to explore—even through failure. Above all, we instill a lifelong love for learning, fostering adaptable and curious minds ready for the future.

FROM CURIOSITY TO MASTERY

Three-tiered learning experience

Our curriculum is thoughtfully designed around a Three-Tiered Learning model – Planning, Process, and Pathway - aimed at transforming every learner’s journey from early curiosity to complete mastery.

PLANNING

We begin with thoughtful curriculum design and personalized learning paths, sparking curiosity and setting clear goals for each student. Curriculum planning is aligned with national and international standards and NEP regulations, blending academic rigor with creative flexibility to lay a strong foundation for lifelong learning.

PROCESS

Through engaging lessons, hands-on experiences, and skill-building activities, students actively deepen their understanding and sharpen their abilities.

PROGRESSION

Learning is guided step-by-step towards higher levels of mastery, critical thinking, and independent exploration, preparing students for academic and real-world success.

Learning at DWPS is not a race; it’s a deeply engaging and dynamic process. We focus not just on the “what” but the “how” of learning - fostering critical thinking, communication, creativity, and emotional intelligence at every stage

BRIGGHT BEGINNERS

BRIGHT BEGINNERS (Grade Pre-Nur - I)

Little Minds, Big Explorations

At Delhi World Public School, we see the primary years as a time to build strong roots while letting imagination and curiosity soar. Our Primary School Curriculum under "Little Minds, Big Explorations" is based on the Play, Learn and Explore technique, where activities are based on a stimulating play environment which inspire students to be curious explorers and fearless creators. Through interactive, concept-based learning, we lay the groundwork in core competencies.

Our approach focuses on deep understanding rather than rote memorization, making lessons meaningful, engaging, and connected to real life.

By incorporating EYFS principles and thematic pedagogy, the classrooms are transformed into vibrant, experiential learning environments. Integration of digital tools in the classroom ignites young learners' curiosity for technology.

Alongside academics, we nurture essential life skills such as empathy, leadership, resilience, and teamwork. We prepare our primary learners not just for the next academic step, but for a lifetime of discovery, passion, and purpose.

PREPARATORY PATHWAYS

PREPARATORY PATHWAYS (Grade II-IV)

Building brilliance layer-by-layer

At DWPS, we believe that the journey to brilliance begins early—built thoughtfully, one layer at a time. Guided by our vision of Preparatory Pathways, our curriculum follows a progressive framework that nurtures curiosity while laying strong academic and emotional foundations for lifelong learning and future growth.

Learning at DWPS is integrated and meaningful. Subjects are not taught in isolation but woven together through themes and real-world contexts. This interdisciplinary approach helps students recognize patterns, deepen understanding, and apply knowledge creatively across disciplines.

Every achievement—big or small—is celebrated. Through ongoing assessments, personalized feedback, and consistent encouragement, we support each child's development, step by step, year after year.

Our academic program blends structured literacy through initiatives like Raz Plus, inquiry and presentation skills through the Flipped Classroom approach, and cross-disciplinary themes for holistic development. Lesson plans encourage collaboration through peer learning and prepare students for hands-on modules like Astronomy and Organic Farming, setting the tone for experiential, lifelong learning.

In Junior School, we prioritize purposeful experiences that shape responsible, confident individuals. Programs like **Cubs and Bulbuls** instill early leadership and teamwork. **Value Education and Life Skills** are seamlessly integrated into daily learning to foster character and emotional intelligence.

Dynamic **digital infotainment sessions** make learning engaging and relevant, while our child-centric environment promotes both academic and social growth. We understand that true brilliance shines through character and compassion. Our program emphasizes collaboration, empathy, self-awareness, and respect—preparing students to build meaningful relationships and strong emotional foundations.

ADVENTUROUS ARC

ADVENTUROUS ARC (Grades V – VIII)

Where Discovery Deepens and Learning Leaps

The Middle Wing at Delhi World Public School is a vibrant and transformative phase in a learner's journey—carefully designed to inspire curiosity, spark independent thinking, and shape confident, compassionate individuals ready to navigate a dynamic world. At this stage, the academic foundation laid in earlier years is bridged with future-ready skills through a curriculum that blends intellectual rigor with creativity, collaboration, and character-building.

With a strong emphasis on *inquiry-based learning*, the Middle Wing fosters *design thinking and computational skills through hands-on projects, coding, and tech-integrated experiences* that encourage innovation and logical reasoning. Scientific temper is cultivated through experiments, *STEM activities*, and participation in Olympiads, nurturing competitive spirit and deep exploration. Students are introduced to artificial intelligence and data science through real-world simulations that develop analytical thinking and digital fluency.

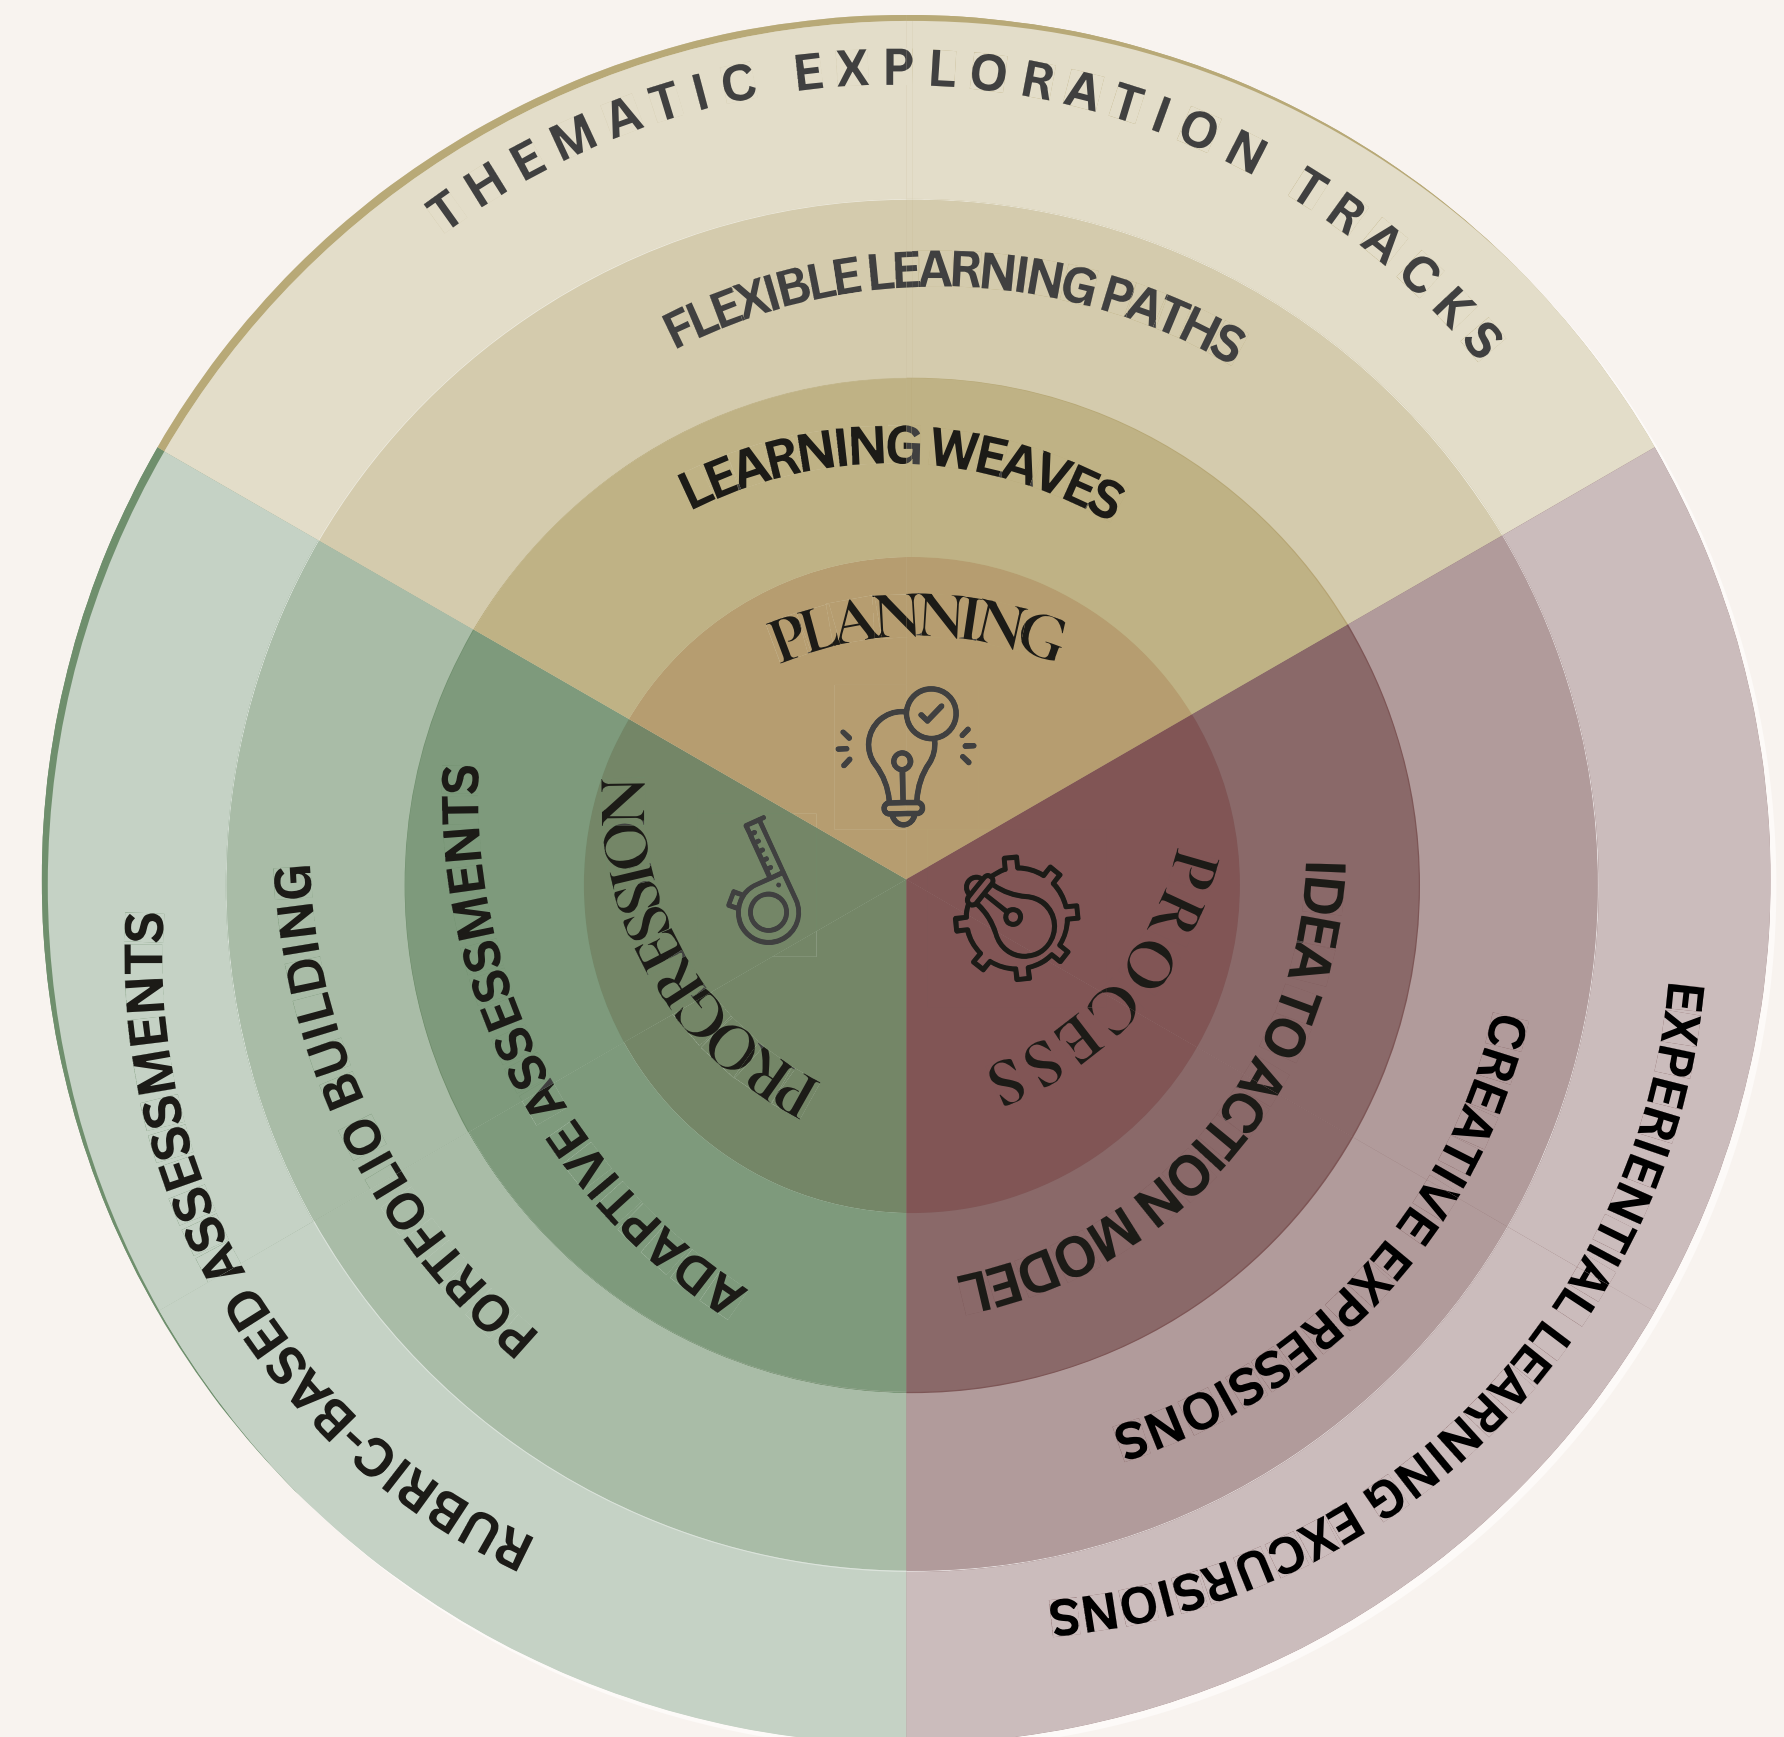

Creative expression is given ample space through video editing, blog writing, and debate platforms that enhance storytelling, critical thinking, and public speaking. The school's Editorial Board and Annual Magazine provide opportunities for students to lead, curate, and showcase their literary and journalistic talents. The performing and visual arts come alive through music, dance, instrumental training, and theatre - offering avenues for emotional expression, confidence, and empathy. Work experience modules such as embroidery, paper craft, fireless cooking, and recycling projects encourage practical learning, life skills, and environmental awareness. Activities like pottery making add a tactile dimension to creativity, promoting focus and patience.

Character education remains at the heart of the Middle Wing, with value education classes and community connect initiatives instilling empathy, ethical decision-making, and civic engagement. Programmes like *Scouts and Guides* further build leadership, discipline, and social responsibility through experiential outdoor learning. A range of student-led clubs such as the *Eureka Club, Ramanujan Club, and Rhetoric Society* provide enriching spaces for deeper exploration of science, mathematics, and oratory.

Student talent is celebrated and amplified through regular events like Talent Hunt Shows and Open Mic sessions, offering platforms for poetry, music, performance, and stand-up acts. Language learning is enriched with immersive programs in French, German, Sanskrit, and Hindi, expanding cultural and linguistic fluency. A comprehensive sports program-featuring basketball, badminton, cricket, chess, football, and lawn tennis-fosters physical fitness, resilience, and team spirit under the guidance of expert coaches.

ADVENTUROUS ARC

FUTURE
READY

FUTURE-READY (Grades IX – XII)

From Depth to Direction

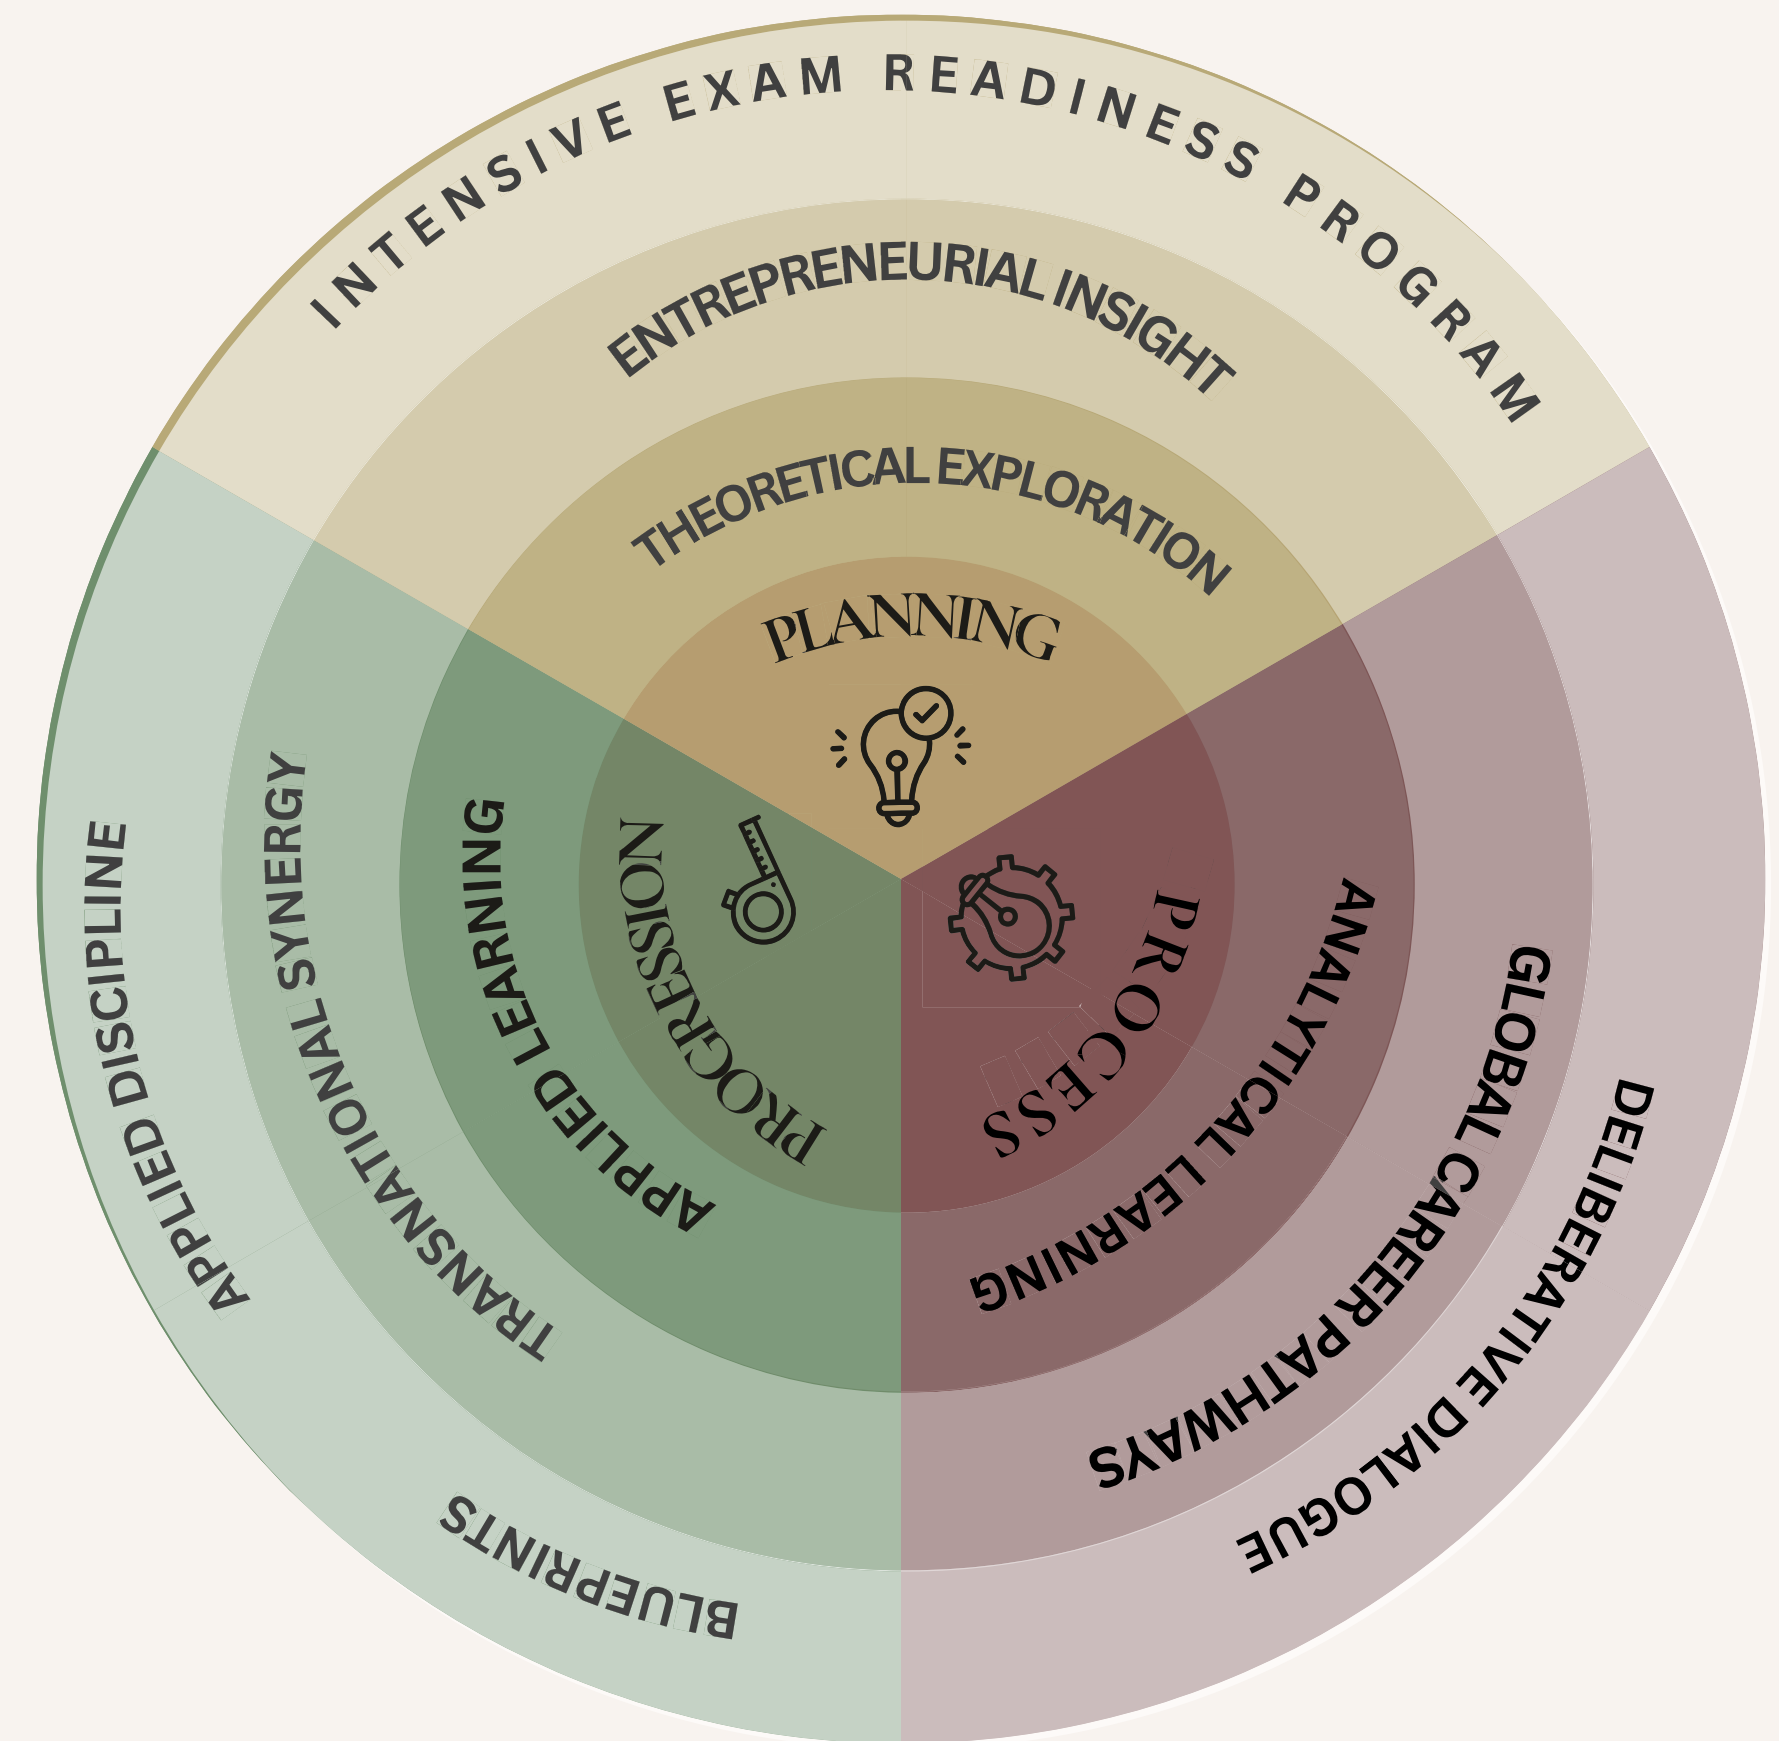

Senior School is a thoughtfully designed roadmap that aligns academic rigour with real-world readiness. Under the guiding principle of “From Depth to Direction”, the curriculum integrates an extensive array of skill-based and vocational subjects alongside core academics, allowing for specialization and career alignment. This phase of education goes beyond academics — it’s about finding purpose.

Dedicated career counselling for overseas education, skill workshops, day excursions to skill industries (such as) and exposure to international platforms ensure every learner moves forward with clarity, confidence, and purpose. Along with academic strength, we focus on nurturing essential skills for the 21st century: communication, collaboration, leadership, innovation, and digital literacy. Students engage in debates, internships, entrepreneurial projects, and technology-driven initiatives that prepare them for global opportunities.

The academic process of the Future-ready Stage, titled, Readiness through Rigour, is designed to sharpen intellectual independence while nurturing leadership and global awareness. Rigorous board exam preparation is complemented by immersive experiences such as Model United Nations (MUN) conferences, international student exchange programmes, and AFS participation, ensuring global exposure. Digital self-learning modules build autonomy, while TED Talk sessions and personality grooming equip students with essential life skills. This integrated approach ensures that each learner is prepared for both academic excellence and real-world challenges.

FUTURE READY

CENTRES OF EXCELLENCE

At our school, students consistently achieve excellent academic results in an environment that balances academic rigor with a broad range of co-curricular opportunities. These include clubs, camps,, competitions, trips, music, performing arts, sports, etc . Participating in these activities helps build confidence and fosters essential skills such as leadership, public speaking, creativity, and teamwork among both boys and girls. Our co-educational setting promotes mutual respect and collaboration, preparing students for real-world social and professional environments. Throughout the year, students from all stages Junior, Middle and Senior can engage in a diverse array of co-curricular programs that nurture a lifelong love of learning and inquiry while encouraging healthy interaction and understanding between genders.

SPORTS

more than games...a way of life

At Delhi World Public School, we believe that sport is far more than physical activity-it is a vital pillar of holistic education and character formation. For us, the playground is not separate from the classroom; it is a dynamic extension of it. Here, students experience the discipline of routine, the thrill of competition, and the joy of teamwork. They learn to lead and to follow, to strive and to fail forward. In this vibrant environment, sport becomes a way of life - fueling the development of confident, resilient, and ethically grounded individuals.

Our sports program is comprehensive and inclusive, thoughtfully structured to ensure that every child discovers a path to physical well-being, personal growth, and achievement. From competitive team sports to individual athletic pursuits, from outdoor adventure activities to daily fitness routines, our students are given the space to explore and excel. Participation is not limited to those with natural talent - our culture encourages every learner to engage, improve, and enjoy the benefits of an active lifestyle.

The sports curriculum at DWPS offers a wide range of disciplines, including cricket, football, basketball, volleyball, badminton, tennis, swimming, and yoga, among others. Professional coaching enhances this experience, with skilled mentors and expert trainers, including partnerships with prestigious academies such as the Bhaichung Bhutia Football Schools.

Supporting this vision is a campus built for excellence. DWPS is proud to offer state-of-the-art sports infrastructure, including full-sized fields for outdoor games, a modern indoor sports complex and swimming pool. Every facility has been designed with student safety, comfort, and performance in mind - creating an ideal environment for training, competition, and recreational play.

Our approach also emphasizes talent identification and personalized mentoring. Dedicated sports educators closely observe students to recognize early aptitude and interest. These insights enable us to guide children toward sports that align with their unique strengths and personalities, helping them hone their skills with intention and care.

While accolades and victories are celebrated, our greater focus remains on what sport teaches beyond the scoreboard - perseverance, humility, time management, strategic thinking, and grace under pressure. These are the lessons that stay long after the match is over, shaping how our students approach academics, relationships, and life itself.

At Delhi World Public School, we don't just play games - we build character, shape ambition, and cultivate a lifelong love for health, teamwork, and self-improvement. Here, sport is not an activity on the margins - it is at the heart of who we are and how we grow.

IMAGINARIUM

the muse spot

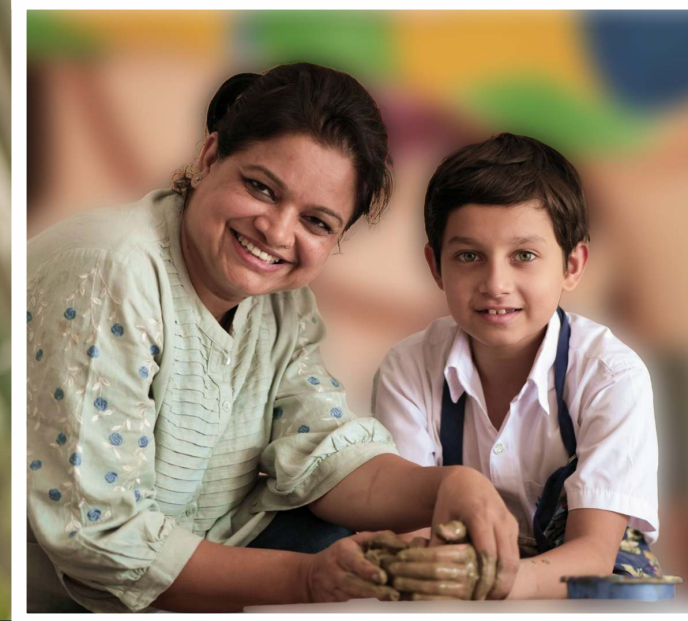

Imaginarium is a vibrant sanctuary for the visual and performing arts - a dynamic space where imagination takes form and creativity is shaped into skill. It offers students a nurturing platform to explore diverse art forms with curiosity, confidence, and purpose, helping them discover and develop their innate artistic talents. In the visual arts, students immerse themselves in painting, using watercolours, acrylics, and mixed media to tell stories and evoke emotion. Sculpture invites them to mould, carve, and construct with materials like clay and wire, building spatial awareness and a deeper understanding of form. Pottery offers the tactile satisfaction of creating functional and decorative pieces, while deepening their sense of texture, balance, and design. At the heart of this wing is Easel & Essence, a dedicated

studio where students refine technique, explore varied styles, and curate personal portfolios under expert mentorship. The performing arts domain is alive with rhythm, movement, and music. Echoes in Motion introduces a range of dance forms, enhancing coordination and expression, while Ballet & Beyond focuses on the discipline and grace of classical and contemporary dance. In Symphony Spot, students explore vocal technique and ensemble performance, growing in both individual artistry and collaborative skill. The Crescendo sharpens instrumental performance, composition, and critical listening, cultivating musical excellence. Together, these experiences make Imaginarium a cornerstone of creative education at DWPS - a place where imagination is set free and guided toward meaningful, lasting expression.

WORDSMITH'S

ink & insight

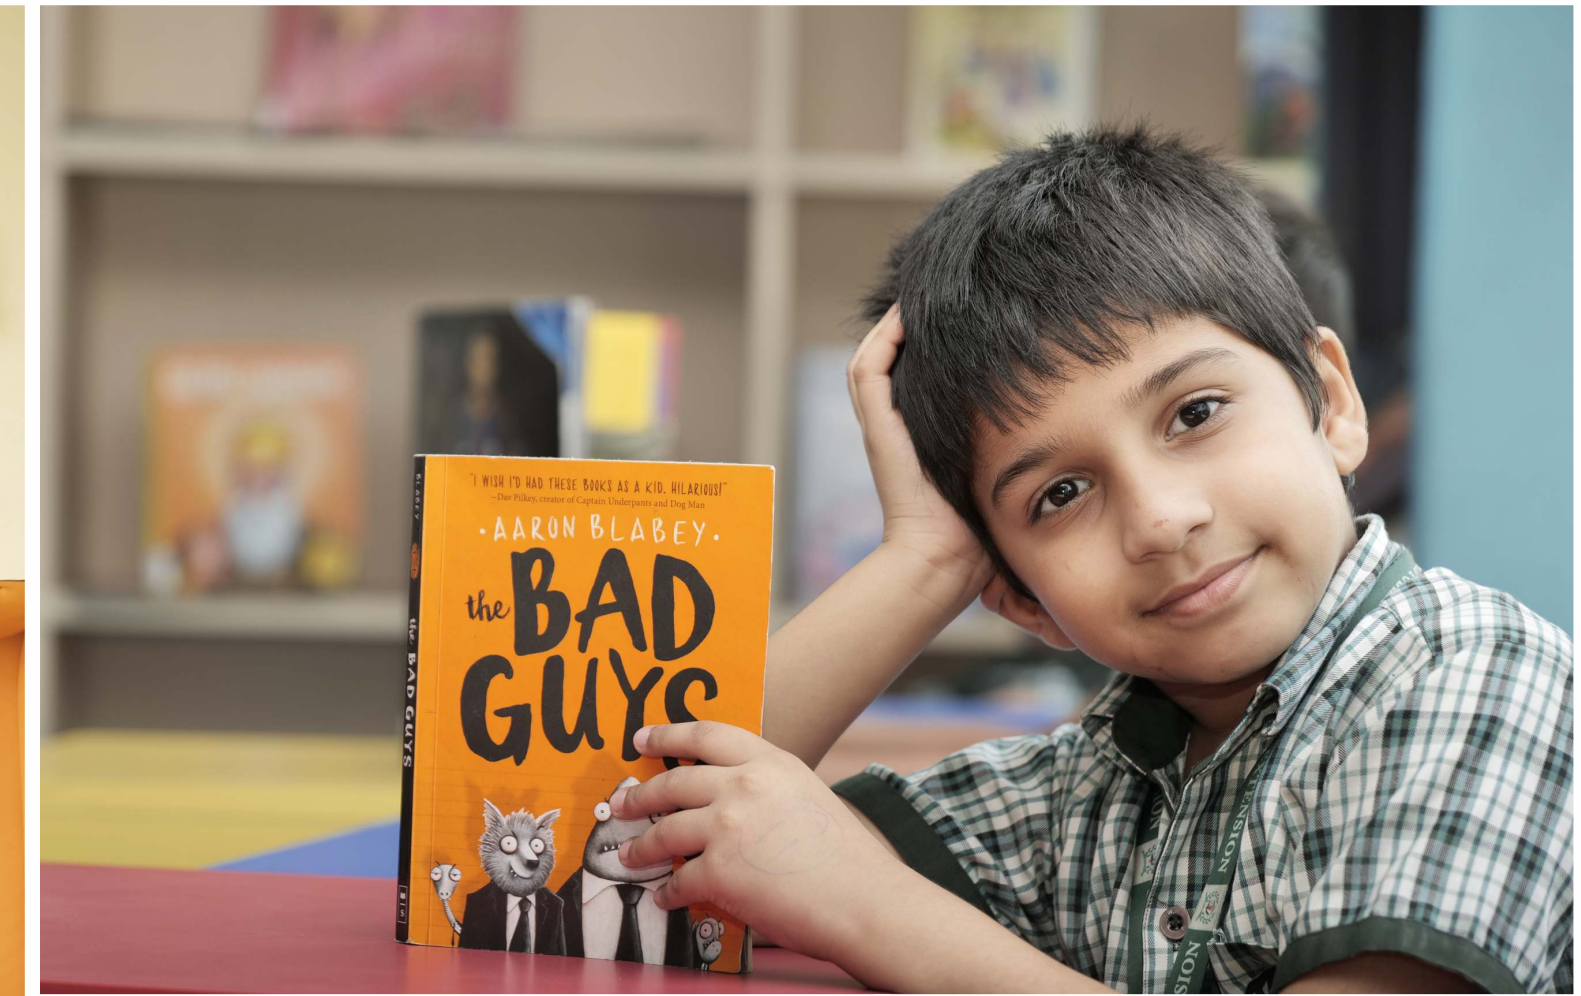

We believe that words have the power to shape minds, stir hearts, and spark change. Here, students aren't just learning to speak or write - they're learning to listen to themselves, to think deeply, and to share their thoughts with the world in ways that are honest, imaginative, and brave. Whether they're standing up in a debate, writing in a quiet journal, performing a powerful piece of elocution, or crafting stories that carry their unique voice, students are gently guided to find confidence in their expression. Rhetoric Roundtable brings fresh opportunities for students to explore the art of argument - not just to win a point, but to understand perspectives, reason with clarity, and speak with purpose. Alongside this, creative writing circles and journaling spaces invite young minds to slow down, reflect, and let their

thoughts flow freely onto the page. Through the Book Reading Club and Foreign Languages Club, students journey into new worlds, cultures, and ideas - deepening their love for language and learning from voices across time and place. And it doesn't end with clubs. The joy of words is woven into everyday school life, from the buzz of book fairs to the calm of quiet reading corners. "Exit Tickets" encourage students to pause and reflect on what they've learned, while Tales & More turns even the shyest listener into a confident storyteller. At its heart, Ink & Insight is about helping children discover that their words matter - that their stories, ideas, and questions are worth sharing. It's a space where language becomes a bridge between thought and action, self and others, learning and life.

ROOTS & WINGS

the reflection room

Roots & Wings is our flagship initiative that brings together a spectrum of programs aimed not just at academic achievement, but at nurturing personal growth, emotional wellbeing, and real-world readiness. At DWPS, we see education as a journey of becoming - not just a pathway to exams or careers. And on that journey, our students are never alone. We recognize that adolescence brings unique challenges. Through open, honest, and age-appropriate workshops, we help students navigate this phase with resilience and clarity. Our counselling services are personalized and compassionate - offering a safe space where every student is heard, supported, and empowered. Our career counselling goes beyond aptitude tests; it's about opening doors. Through individual guidance, real-world exposure, and reflective conversations, students are encouraged to explore possibilities and make informed choices about their future. We also believe that education is a shared responsibility. Our parent counselling sessions offer practical guidance on communication, development, and how to stay

connected during transitional years. When home and school move in harmony, the impact on a child is transformative. Equipping students with essential life skills is equally vital. From time management and goal-setting to decision-making and communication, we help learners develop the confidence to thrive in the world beyond school. We place deep emphasis on emotional intelligence. Our Social and Emotional Learning (SEL) programs help students build empathy, self-awareness, and meaningful relationships - creating a culture where kindness, respect, and connection are lived every day.

With "Roots & Wings," DWPS offers more than just education - we offer support, insight, and a space to grow.

BYTES & BRAIN

preparing for the future

At DWPS, we believe that preparing students for the future means embracing the present - especially the fast-evolving world of technology. Our BYTES & BRAIN initiative is a bold step toward this vision, blending innovation with education to nurture digital fluency, creative confidence, and analytical thinking. This initiative brings together a range of pioneering programs that not only introduce students to cutting-edge tools and concepts but also encourage them to think critically, solve problems independently, and innovate fearlessly. In partnership with ENTECRES Labs, our Robotics Program gives students in Classes VI to VIII the opportunity to dive into the fascinating world of engineering and automation. Across 15 hands-on sessions, they explore the mechanics of gears, pulleys, sensors, and more - ultimately designing and building ten fully functioning robotic models. In our NeoClass learning spaces, traditional classrooms are reimagined with smart boards, high-speed internet, and interactive digital tools that transform lessons into immersive experiences. The learning becomes more visual, more collaborative, and deeply engaging.

Taking personalization a step further, InstructIQ uses artificial intelligence to adapt to each student's pace and learning style, ensuring no learner is left behind. By analyzing learning patterns and tailoring resources, it creates a unique learning journey for every child - one that aligns with their strengths and needs. Our interdisciplinary program, STREAMSync, integrates Science, Technology, Reading, Engineering, Arts, and Mathematics into a connected curriculum that reflects how knowledge works in the real world. It breaks down silos between subjects, encouraging students to think across disciplines and explore ideas through multiple lenses. At the heart of it all is the Robustian Fest - our annual celebration of student-led innovation and tech creativity. It's more than just a showcase; it's a platform where students present their work in robotics, coding, and digital arts to a larger audience, gaining confidence and feedback from the wider tech community. Through BYTES & BRAIN, DWPS is not only keeping pace with the digital age - we're shaping students who will lead it.

ConnecTED world

cultures connect

At DWPS, education is not confined to the four walls of a classroom - it's a journey into the wider world, where learning becomes a bridge between cultures, ideas, and communities. Through our ConnecTED World initiative, we open that bridge for our students, fostering global perspectives, cross-cultural understanding, and linguistic fluency. This initiative is rooted in the belief that every child has the potential not just to succeed in a globalized world, but to contribute meaningfully to it-as a thoughtful communicator, a respectful global citizen, and a culturally curious individual.

Beginning in the academic session 2025-26, our TED-style talks will become a regular part of the student experience. These talks are more than just public speaking opportunities-they're platforms where students explore ideas that matter, reflect on their own journeys, and find the confidence to share their voice with the world. Whether it's discussing climate change, innovation, or personal growth, students learn to express themselves with clarity, passion, and global relevance.

Our student exchange programs further deepen this experience. From Denmark to France, Spain to Egypt, and the USA, DWPS students step into new cultures, new schools, and new ways of life. These immersive journeys broaden their horizons, nurture adaptability, and spark empathy as they learn firsthand what it

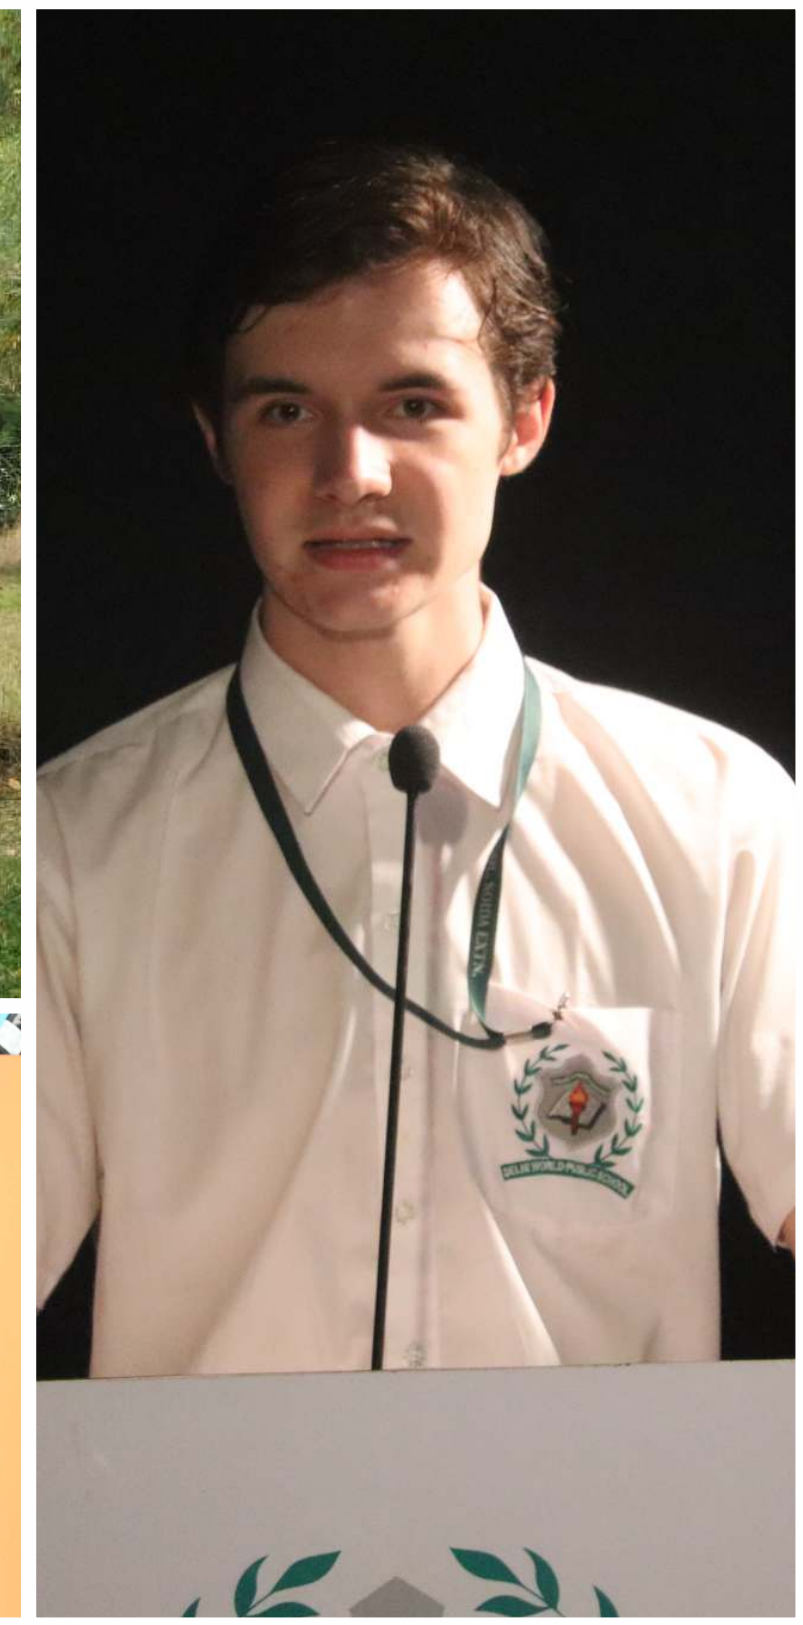

means to live and learn in a truly interconnected world. The friendships they make, the perspectives they gain, and the memories they carry stay with them for life.

Language, of course, is the gateway to understanding others. At DWPS, we offer robust programs in French, German, and Spanish-helping students not only gain proficiency but also develop a deeper appreciation for the cultures these languages represent. Our partnerships with global institutions bring authenticity and richness to this experience. In collaboration with Alliance Française, our students dive into the beauty of French language and culture, with opportunities for internationally recognized certifications and cultural exchanges. Similarly, our association with Max Mueller Bhavan brings Germany to life through interactive lessons, cultural events, and engaging explorations of one of Europe's most dynamic nations.

At its core, ConnecTED World is about more than preparing students for global careers-it's about helping them understand and embrace the world in all its diversity. It's about nurturing young minds that are open, empathetic, and ready to listen as much as they speak. At DWPS, we don't just teach our students to think globally-we help them connect deeply, meaningfully, and respectfully with the world around them.

YOUTH LEAD

pathways to leadership

We believe that leadership isn't just a role - it's a mindset that begins taking shape early in life. Through our YOUTHLEAD initiative, we create opportunities for students to grow as confident, responsible, and collaborative individuals who are prepared to lead with empathy and innovation. Whether they are guiding peers, organizing events, or sharing their voice with the world, our students are encouraged to step up, speak out, and shape their school community with purpose and passion.

The Student Council is at the heart of this initiative-a living model of leadership in action. Elected through a democratic process, student leaders take on roles that carry real responsibility. They contribute to decision-making, represent their peers, and help shape the school environment, all while developing vital skills like teamwork, communication, and accountability. It's not just about leading others - it's about learning to lead oneself.

Equally powerful is our Peer Mentoring program, where senior students support their juniors through academic and personal guidance. These relationships go beyond tutoring; they foster a sense of belonging, respect, and shared growth. Younger students gain confidence through mentorship, while older students build empathy and leadership through service - creating a community where learning truly is a collaborative journey.

Expression is another key aspect of leadership, and our student blogs provide a digital space where ideas can take flight. Whether reflecting on personal experiences, discussing current issues, or sharing creative pieces, students learn to write with voice and conviction. These platforms encourage self-awareness and inspire others, turning quiet thoughts into powerful narratives that resonate.

Through hands-on involvement in school events, students also become planners, organizers, and problem-solvers. From cultural festivals to academic fairs, our young event managers learn the intricacies of time management, logistics, and teamwork. It's an immersive experience that not only builds real-world skills but also fosters a strong sense of ownership and pride in what they create together.

In today's digital world, leadership also means being tech-savvy. Our Tech Mentor program gives students the opportunity to assist their peers and teachers in navigating educational technology. By sharing their digital expertise, these student leaders promote a culture of collaboration, adaptability, and innovation-ensuring that technology becomes a bridge, not a barrier, in learning.

At the foundation of YOUTHLEAD is our deep commitment to Social and Emotional Learning (SEL). Integrated into everyday classroom life, SEL workshops and activities help students build emotional intelligence - developing skills like empathy, self-awareness, conflict resolution, and positive communication. These are not just life skills; they are leadership essentials.

Through YOUTHLEAD, DWPS empowers students to see themselves as changemakers-not just someday, but today. It's about cultivating a sense of purpose, giving them the tools to act on it, and celebrating the many ways leadership can be expressed - through service, through voice, through innovation, and through care.

THE LEARNING LANDSCAPE

Campus at a glance

"An environment that inspires curiosity, nurtures excellence, and fosters holistic development."

At Delhi World Public School, Noida Extension, infrastructure is not just about buildings - it's about building futures. Every classroom, lab, and learning space has been thoughtfully designed to empower curiosity, creativity, and character. The innovatively designed, fully air-conditioned campus blends aesthetic elegance with functionality.

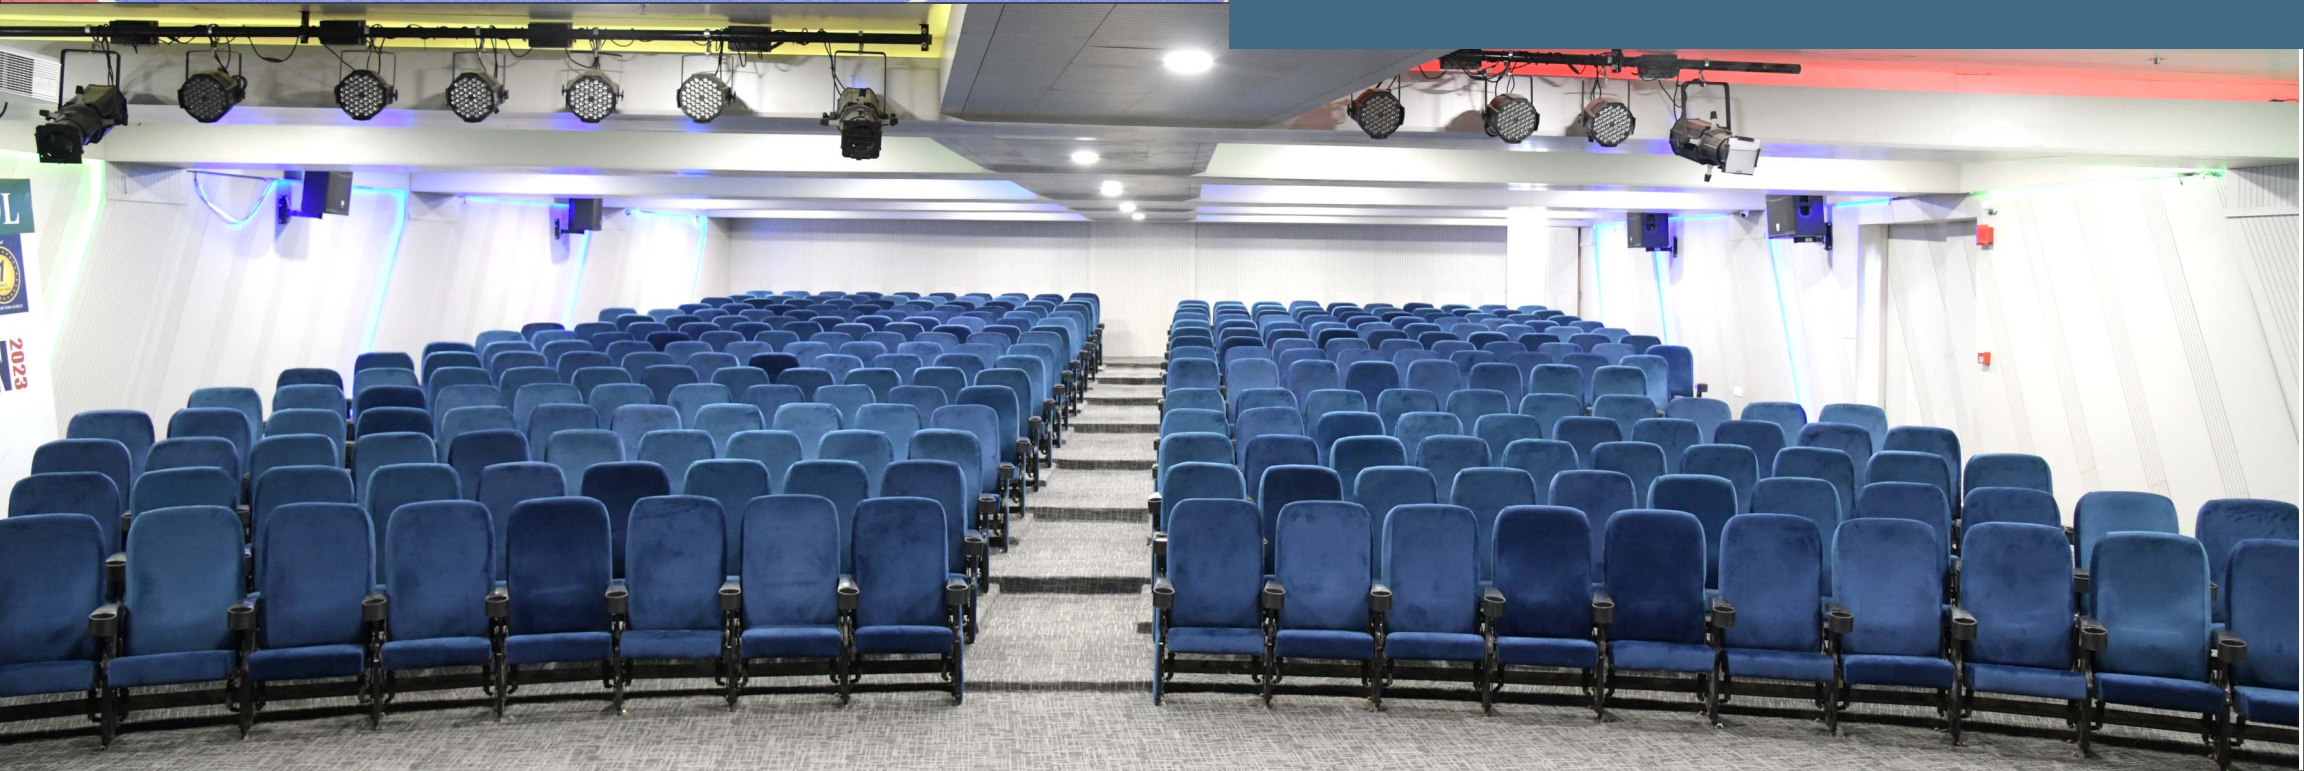

From our nurturing Junior Campus, rooted in a legacy of early childhood excellence, where curiosity blossoms and laughter echoes through vibrant corridors, DWPS offers a haven for young minds to explore, learn, create, and grow. Surrounded by beauty and innovation, children embark on their foundational journey in an environment designed to spark imagination and foster joyful discovery.

As students progress to the dynamic Senior Campus, they are welcomed into a space that champions both academic excellence and personal development. Here, every learner is inspired and supported to thrive in an ever-evolving world.

Our school infrastructure reflects the best of 21st-century educational design, seamlessly integrating technology into everyday learning. The newly developed Junior campus stands as a beacon of modern learning, with a vibrant environment that sets the standard for excellence.

Beyond traditional classrooms, the campus features open learning spaces that encourage collaboration, creativity, and critical thinking. These thoughtfully designed areas provide students with a stimulating and engaging educational experience - one that is as exhilarating as it is enriching.

At DWPS, we don't just educate; we empower students to shape the future.

SAFETY MEETS RESPONSIBILITY

a school that cares, protects, and prepares

At Delhi World Public School, the safety and security of every child is our highest priority. We believe that a child can truly flourish only in an environment that is physically safe, emotionally secure, and closely monitored. As educators and caretakers, it is our duty to ensure that each student feels protected, valued, and cared for at all times.

To uphold this commitment, the school has adopted a comprehensive safety framework that integrates advanced technology, stringent protocols, and trained personnel:

CCTV Surveillance: High-definition CCTV cameras are installed in every classroom, across all corridors, entry and exit points, common areas, and the entire school campus. All school buses are also fitted with surveillance cameras. This system enables continuous monitoring and helps deter any untoward incidents.

GPS-Enabled Transportation: Every school bus is equipped with GPS tracking to ensure real-time monitoring of the vehicle's location. Parents and school authorities can track bus movements, ensuring both punctuality and safety during transit.

Junior Campus: Understanding the unique needs of our youngest learners, we have a separate, self-contained campus designed exclusively for our pre-primary and early primary students. This junior campus features age-appropriate infrastructure, enhanced supervision, and a nurturing environment that offers both safety and comfort.

Verified and Trained Staff: Every member of the teaching and non-teaching staff, including drivers, conductors, and support staff, undergoes mandatory police verification before joining the school. In addition, they receive regular training in child safety, emergency response, and sensitivity in handling children.

Controlled Access and Visitor Management: Entry to the school premises is strictly regulated. Visitors are required to register at the gate and are allowed access only with prior appointments or valid reasons. ID badges are issued and must be displayed at all times.

Emergency Preparedness: Regular mock drills, fire safety training, and evacuation exercises are conducted in collaboration with safety experts to ensure students and staff are well-prepared in case of emergencies.

Health and Wellness Support: A well-equipped medical room with trained personnel is available on campus to address minor health concerns. For serious cases, we have tie-ups with nearby hospitals. Periodic health check-ups and wellness workshops are also part of our preventive care approach.

Safety is not just a protocol at Delhi World Public School - it is a culture we cultivate every day. We constantly evaluate and upgrade our systems to ensure that every child in our care is protected, respected, and nurtured in the safest possible environment.

HARMONY

our ecosystem

We believe that parent-school harmony is essential to creating a supportive learning environment that benefits students, educators, and families alike. A strong relationship with parents plays a key role in the educational journey. We facilitate open dialogue through regular meetings, workshops, and events—encouraging meaningful engagement and collaboration in student development.

A key part of this commitment is our dedicated School Wellness Centre, created especially for parents. Recognising that parenting is a transformative journey, the centre offers resources, workshops, and counselling to support parents' personal growth and well-being as they navigate the challenges of raising children.

We truly value our parents, and this partnership has greatly contributed to building a positive school culture where students thrive both academically and socially. By cultivating a collaborative and healthy ecosystem, we lay the foundation for a community that champions the holistic development of every child—ultimately leading to enhanced educational outcomes and a shared commitment to excellence.

CHANGEMAKERS.... youth for change

At Delhi World Public School, we are committed to nurturing future-ready learners who not only strive for academic excellence but also exemplify the values of global citizenship. Guided by the United Nations' Sustainable Development Goals (SDGs), we have integrated these global priorities into the core of our educational journey, empowering students to become thoughtful advocates for a more sustainable and equitable world.

Our Community Connect Project is a year-round initiative that reflects our school's deep sense of responsibility toward the social and ecological environment in which we operate. This initiative actively involves both staff and students in a variety of community outreach efforts aimed at supporting underprivileged populations through socio-economic, educational, and health-related interventions. Activities under this program include donation drives, disaster relief assistance, volunteering, supporting social causes, and collaborating with civil society organisations (CSOs) and NGOs to enhance impact and outreach.

Our students have visited schools for the underprivileged and have partnered with YouWeCan, an initiative by Yuvraj Singh, to raise cancer awareness. Under the Community Connect banner, the Green Hope campaign was launched, beginning with a large-scale tree plantation drive. Our learners have seamlessly woven this mission into their academic experience, showing unwavering enthusiasm and purpose. Their commitment is further reflected in their active participation in impactful projects like Janta Ki Thali, the Book & Clothes Donation Drive, and meaningful engagements with institutions such as the Blind School and Sanskar Kendra School.

Through these efforts, our students demonstrate that education at DWPS is not confined to classrooms—it is a way of life that shapes responsible, compassionate, and proactive global citizens.

CLUBS AND SOCIETIES

*Learning Beyond
Classrooms*

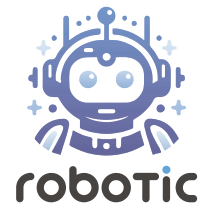

We strive to nurture curiosity, initiative, and self-driven growth in every student. With the support of dedicated faculty mentors, we offer a diverse range of clubs, councils, and student-led initiatives that extend learning beyond the classroom. These experiences help students explore their passions, build real-world skills, and grow into confident, well-rounded individuals.

Kepler Klub

Astronomy

The Astronomy Club inspires curiosity and imagination by offering hands-on experiences in stargazing, space science, and astrophysics. Students use telescopes, explore topics like black holes and constellations, and engage in quizzes, model-making, and virtual labs. Special events provide opportunities to interact with astronomers, deepening their passion for the cosmos.

Code & Circuit

Robotics club

Education today must keep up with technology. Our CS-STEM program uses Robotics for hands-on learning, building creativity, problem-solving, teamwork, and critical thinking to unlock each student's potential. The club fosters creativity, problem-solving, teamwork, and technical skills, guiding students to investigate, reason, predict, and think critically. This dynamic approach helps unlock each child's true potential through a journey of discovery.

Talk the Talk

linguistics club

We believe that learning foreign languages sharpens critical thinking and broadens students' global perspective. By offering French and German under the guidance of experienced faculty, we provide valuable international exposure while enhancing mental focus, reading, and writing skills.

UNESCO Connect

UNESCO Club

This club creates awareness about preserving and promoting our rich and varied culture among the young learners.

Various activities and educational excursions to India's heritage monuments enables students to appreciate the traditions, culture and diversity of our country.

Global Voices

Model United Nations

Model United Nations is an immersive educational simulation where students explore diplomacy and international relations. It provides an excellent platform for delegates to debate diverse national perspectives and collaborate creatively to address global challenges.

Curtain Up

the thespians
dramatics club

We strive to nurture curiosity, initiative, and self-driven growth in every student. With the support of dedicated faculty mentors, we offer a diverse range of clubs, councils, and student-led initiatives that extend learning beyond the classroom. These experiences help students explore their passions, build real-world skills, and grow into confident, well-rounded individuals.

Roots & Legacy

the heritage club

The Heritage Club of DWPS NE helps students connect with their roots and embrace shared traditions and values. It brings together diverse communities through workshops, festivals, environmental projects, cultural tours, quizzes, talks, and debates.

Rhetoric Roundtable

debating club

The Debating Society of DWPS NE cultivates a dynamic community of passionate debaters eager to make a positive impact. It encourages students to explore diverse perspectives, teaches that every problem has a solution, and inspires them to ask insightful questions, think creatively, and become agents of change.

FLOWING FROM THE PAST, NURTURING THE FUTURE:

the spirit of our four houses

At Delhi World Public School, the four houses—Brahmaputra, Narmada, Kaveri, and Yamuna—draw inspiration from the great rivers of India. Each symbolizes life, strength, and the power to shape and sustain. Just as these rivers have nurtured civilizations and carved the nation's path, our houses nurture young minds—instilling resilience, purpose, and a deep connection to heritage. In every student flows the spirit of growth, renewal, and collective aspiration.

Brahmaputra, wild and mighty, inspires courage and the spirit of adventure. Its house fosters bold leaders and explorers ready to chart new frontiers.

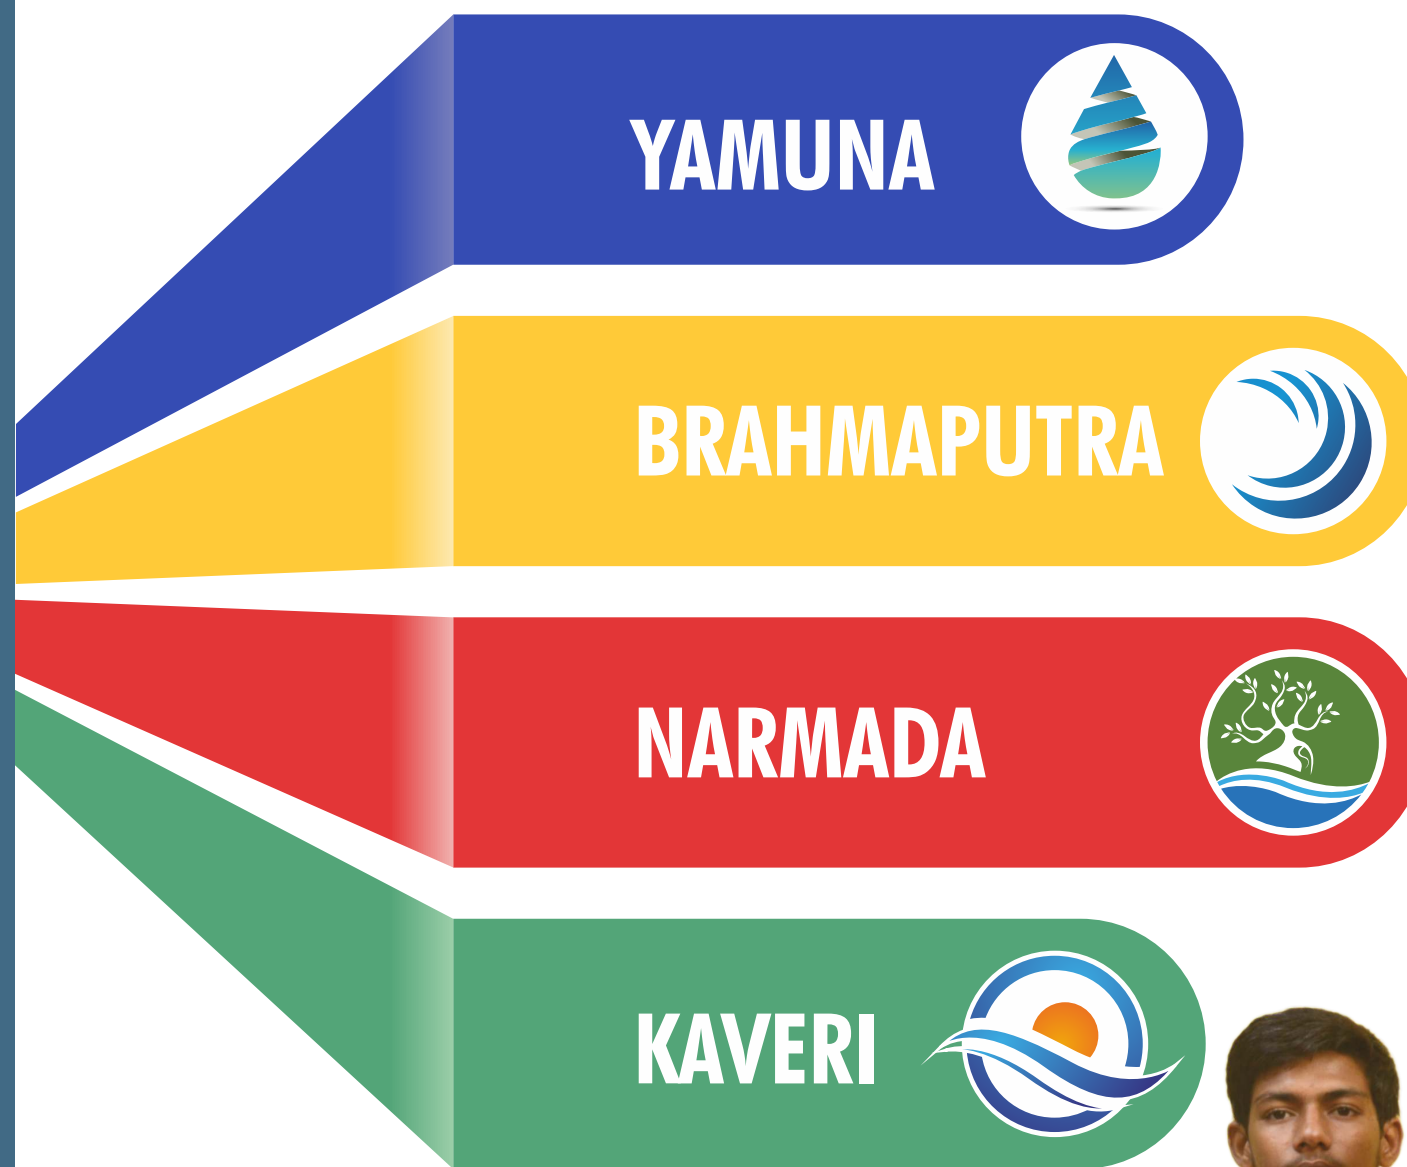

Narmada, serene and sacred, symbolizes calm strength and unwavering values. This house nurtures thinkers, artists, and humanitarians with deep moral roots.

Kaveri, life-giving and graceful, teaches persistence, service, and quiet determination. Its members are the nurturers and changemakers of tomorrow.

Yamuna, rich in history and promise, represents resilience and revival. Its house breathes hope and innovation into every child who dares to reimagine the future.

Like rivers that connect past to present and land to life, our houses unite tradition with transformation - guiding students toward excellence in academics, sports, creativity, and citizenship.

At Delhi World Public School, we nurture the river of potential within every child and help it thrive.

LEARNING ARCHITECTS

the inspiration catalysts

The School is proud to be supported by a team of highly qualified, experienced, and dedicated educators. Our faculty represents a balanced blend of seasoned professionals and dynamic young talent, fostering an environment that is both progressive and grounded in educational excellence.

Teaching at our school extends far beyond the confines of the classroom. The academic framework is designed to encourage inquiry-based learning and independent thought. Faculty members often conduct lessons in alternative learning spaces such as the school's amphitheatre or local heritage sites, integrating the richness of the environment into the curriculum. Technology is purposefully embedded into pedagogy to enhance learning outcomes and academic rigour.

Our teachers are deeply invested in the all-round development of

students. They lead co-curricular initiatives, including adventure expeditions, clubs, and skill-based workshops.

We uphold rigorous recruitment standards, selecting educators for their expertise, leadership potential, and alignment with our values. Many faculty members bring experience from reputed institutions, with an average teaching experience of over 10 years.

We place a strong emphasis on continuous professional development. Faculty members regularly participate in workshops, seminars, and certification programmes—both within their areas of expertise and in interdisciplinary fields such as student counselling and leadership. All staff members participate in a structured Continuous Professional Development (CPD) programme. The School allocates substantial

resources toward capacity building through CBSE-led initiatives and other pedagogical training platforms, ensuring our faculty remains at the forefront of best practices in education.

To ensure personalised attention and effective engagement, we maintain a low student-teacher ratio of 15:1. Faculty performance is closely monitored through structured appraisals, classroom observations, and a robust 360-degree feedback mechanism involving students and parents. These evaluations inform tailored development plans and uphold our commitment to instructional quality.

Alumni Speak

“

Mradul Sharma

I have been bestowed with the esteemed opportunity to contribute to the welfare of my nation through my induction into the distinguished institution of NDA Khadakwasla. The National Defence Academy stands as an eminent establishment, heralding the confluence of training for the Indian Armed Forces' triumvirate - the Indian Army, the Indian Navy, and the Indian Air Force. I am highly indebted to Delhi World Public School, Noida Extension which has been more than mere academia to me; it was a cherished chapter that I wished would never end. The tenderness and benevolence shown by my mentors evoke nothing but gratitude.

”

“

Akshat Shashi

My revered alma mater, the illustrious DWPS, instilled a steadfast foundation imperative for constructing a resilient edifice. Guided by erudite mentors, endowed with opportunities by the school's administration, and under the tutelage of our exceptional principal, Ms. Jyoti Arora, I refined my outlook and demeanour towards life. Currently, I am actively immersed in an internship at Siska (Manchester, US), specializing in the intricate realm of machine learning within the field of computer science.

”

“

Aviral Hatwal

I am currently pursuing the esteemed B.Tech program at IIIT Lucknow, delving into the captivating field of interdisciplinary Computer Science with a focus on business applications. Without a doubt, my educational institution, DWPSNE, has assumed a pivotal position in moulding my personal maturation and advancement. It has bestowed upon me an extraordinary milieu, sparking an ardent fervour that propels me unwaveringly towards the pursuit of distinction, the broadening of intellectual horizons, the profound appreciation of every precious encounter, and the wholehearted embrace of the multifaceted facets inherent in life's odyssey.

”

“

Nishtha Rai

As I embark on my journey pursuing a dual degree in BBA LLB, I am fully immersed in the management & operations of the esteemed non-governmental organization, MYRA- Ek pahel. Additionally, I have been bestowed with a remarkable opportunity to partake in a highly significant internship focused on management & corporate finance at the prestigious Management Development Institute Singapore (MDIS). Indeed, my educational institution, DWPSNE has served as an unparalleled catalyst for my personal growth and development.
